

ARTERIORS SPENCER TABLE LAMP

\$565

Clean. Sleek. Modern. This lamp is the epitome of industrial refinement, with a silhouette and edginess that is characteristic of the era, updated with the clean lines and polished finish of more modern design. The brushed bronze finish makes the porcelain structure look metallic, especially with the hand-etched knurling in the bands that wrap around the neck. It is topped with a natural linen drum shade with an ivory cotton lining. Finish may vary.
