

ARTERIORS MARION SCULPTURES

\$430

According to Greek legend, the rosy pink hue of this quartz comes from the bonding of Adonis and Ares blood upon the stone, which is why it now symbolizes love and unity. In design, it is said to also bring calm and harmony to a space. Each quartz is hewn to a perfect shape to bring unquestionable beauty, raised on a modern pedestal with an antique brass finish. The rose tone will vary with each.
